Resolutions. We hold it to be absolutely essential to the vati n of the liberties of the citizens, that veral States shall be maintained in all their rights, dignity and equality, as the most complete and reliable administration of their own domestic concerns, and the surest bulwarks against anti-republican tendencies. Every attempt on the part of the Federal Government Constitution, or to exercise a delegated power in any manner not therein prescribed, is an act of usurpation, demanding the instant and unqualified condemnation of a people jealous of their liberties. And we ho'd that any unconstitutional interference by the General Govern-ment with the local affairs of any State to any ment with the focal amairs of any State to any extent or under any pretense whatever should be at once condemned by all classes of every section of the Union, as all such acts tend to the destruction of our Federal system and the consolidation of all power in a centralized des-

Another Hot Bath for "Juno." MAY, 34, 1875. EDITOR HARTFORD HERALD: - In your is sue of the 19th inst., a correspondent from Beaver Dam, signing himself or herselt, "Juno,", has seen proper to make some unkind allusions to a Sunday School for colored persons, lately begun on the property'of, and near the Render mines. It would not be necessary to notice in any way "Juno's" remarks, but for the evithe public to know that they (speaking for the people of Beaver Dam) take no stock in it. Now this was all superfluous and unnecessary on "Juno's" part, as most of ns are fully aware that they take no stock Suday Schools of any kind, white or colored. But I must confess I was not prepared to find Beaver Dam so far dedess, a most fit and appropriate advocate for the views and opinions set forth in this letter, and well worthy of the era of ancient mythology. "Juno" is very min ute in his description of this "lonely little but" in which the school is held, and for a celestial is singularly inaccurate. or she, even goes so far as to give a his-tory of all its former occupants and the connubial intelicities that befel its inmates. But how was it, "Juno," that you the "patron goddess of married women' did not interpose your almighty authority and restore tranquility and happiness to this distracted and unfortunate household, for we no where read that even the heathen gods made any "distinction on account of race, color, or previous condition of servitude." rather suspect, "Juno," that you, adopting that favorite custom of the gods, had

metamorphosed yourself into an Adonis, and with Burnside whiskers and a delicate cane, was playing the devoted to some fair Cromwell damsel, or, maybe, you were the very "young buck" who, while squeezing a Hartford girl's hand, was told let go that hand; I want none of your Beaver Dam toolishness around me.' 'Juno" says further, alluding to the teachers, that "only one resides at this place, and he being a government officer. I sup-pose there is nothing wrong in it." How cruel and unkind this "Juno," thus to try and belittle an office which did you not try hard to get and failed? And had you succeeded, I might not be called upon to write this, but rather to record the noble and self-sacrificing devotion of "Juno" in the cause of colored Sunday Schools. But why argue longer with one whose views the cars and travel as far as Rockport or Elizabethtown, and learn that the days of bigotry, prejudice and intolerance are fast lisappearing, and that we live in the enlightened age of the nineteenth century, and not in the days of heathen mythology, and while some may be, neither the world is concerned. Now what does such gab- or Ohio county is governed by the opinions of Beaver Dam; and when he awakes from his Rip Van Winkle sleep, he will find that things do not remain in statue quo ante bellum, and the sooner this fact becomes realized the better for us. Some five months ago, Rev. G. Ghorton. a Presbyterian minister, and his wife, came down from Louisville for missioncounty. Rev. Mr. Ghorton, a native of Georgia, has been tor years pastor of the Seventh and Chestnut Street Presbyterian to need any eulogy on my part. Being advised by his physicians, on account of his wife's ill health, to try country life, he chose this field for his labors. He holds services twice a month at the Render mines for the benefit of the three mines in this vicinity, and has a flourishing Sunday School both at Rockport and Render.

He has also established Bible readings every Tuesday evening at the Render mines, which are largely at tended and exceedingly instructive colored population having manifested a desire to be instructed also, he told them if they would procure a house he would aid them all he could, assisted by any of the white school who might feel disposed to do so. The negroes procured this "lonely little hut" close to the Render mines, and each Sunday morning they are instructed here at 9 A. M. This much for the colored Sunday School I will conclude, M. Editor, by quoting

from some remarks recently made by an eminent Northern divine, luding to the prejudices that had imbued his mind in regard to the South, and how they had been bispelled by a tour through that section, he says: "A villager, whose little world has been bounded by hills and trees, that have gladdened his days and sentineled his nights, can hardly escape being narrow-minded. The cosmopolite who has been browned by the suns of other lands, will probably have breadth of judgment and catholicity of feelings and opinions, and to this cause must we attri-bute a large proportion of the mistakes that alienate, or the more positive enmities that antagonize, members of a com-mon human family; for the social habits, political opinions, and religious convictions are as peculiarly sectional as if we were members of opposite hemispheres." The hope of education, of domestic virtue, of good citizenship and of pure religion is connected with the complex relations which Caucassian and African races bear to each other; and all the traditions of the past but strengthen the indications of the future in the assurance that the original and natural occupants of the soil are the only mes who can successfully work out the abo problems. Then have we no voice to lift against that selfishness of unscrupulous men which makes of these poor creatures political merchandize? The hope of the South is not in politicians or force-bills,
